Automatic Expungements - What You Need to Know

How did we get to this point?

Prior to April 11, 2023, individuals seeking an expungement of past convictions have had to petition the courts to have those offenses expunged. This will change when the second phase of Michigan's Clean Slate Act goes into effect on April 11, 2023, this new process will allow for convictions to be expunged through an automated system. This system will be established and run by the State of Michigan, in conjunction with the existing network of courts around the State.

What types of offenses are ineligible for Automatic Expungement?

Please note that while the offenses listed below are not eligible for automatic expungement, they may still be eligible for expungement through the petition process.

- Assaultive Crimes e.g. Aggravated Assault or Felonious Assault
- Serious Misdemeanors e.g. DUI or Domestic Violence
- Crimes of Dishonesty e.g. Felony Embezzlement or Uttering and Publishing
- Any offense punishable by 10 or more years e.g. Home Invasion 1st or Unarmed Robbery.
- Any Human Trafficking violation
- Any violation of MCL 777.1 to 777.69, which involves injury, serious impairment or death, a minor or vulnerable adult
- Any other conviction listed under <u>MCL 780.621c</u> which is ineligible for expungement through the petition process.

I have other offenses on my criminal record that are not eligible for Automatic Expungement. Is the petition process still an option to expunge those records? While this new automated system will create an alternative pathway to an expungement, individuals who are eligible to expunge certain convictions through the traditional petition process will still be afforded that option as well.

As seen in the table below, Michigan's automated expungement process can be broken down into 4 main components. Each component is responsible for the expungement of a specific type of offense.
